

# GDPR and 'Cyber Essentials' Micro Business Package - Only £1,499 (exc: VAT)

**A unique service to help your business be as ready as possible in this ever-changing world of regulation. Developed by CRIBB Cyber Security, to increase your security and be as compliant as you can whilst not blowing the budget.**

GDPR (General Data Protection Regulation) is now law, regardless of size or turnover, every organisation must ensure it has thorough processes and tools to protect data and restrict access where appropriate. 'Cyber Essentials', an official Government certification, reassures customers that you take cyber security seriously and helps to guard against the most common cyber threats.

**Your customers and suppliers will shortly require this certification as a minimum.**

**Who is it for?** Every organisation of 1 to 4 staff

## Highlights

- ▶ GDPR and 'Cyber Essentials' review plus fact find to understand the policies and procedures your organisation requires
- ▶ Professional one-to-one remote consultancy guiding you through the readiness process
- ▶ Expert website scan and report to identify any security weaknesses

## What do you get?

- ▶ Cost effective GDPR and 'Cyber Essentials' consultancy from a GOLD certified and Government approved expert assessor – he will be your senior consultant.
- ▶ Policy and procedures review to check suitability to your business
- ▶ 'Cyber Essentials' certification
- ▶ Official listing on the National Cyber Security Centre database
- ▶ Free National Cyber Security Centre 'Small Business Cyber Security Guide'
- ▶ Detailed remote advice guidance
- ▶ Official company policies, procedures and technical requirement listings
- ▶ Five basic policy templates to get you started
